HABC Level 2 Award in Door Supervision (QCF)

Introduction

This Qualification Specification is designed to outline all you need to know in order to offer this qualification in your centre. If you have any further questions, please contact your account manager.

Qualification Details

The HABC Level 2 Award in Door Supervision (QCF) has been accredited by the regulators of England, Wales and Northern Ireland (Ofqual, Welsh Government and CCEA) and is part of the Qualifications and Credit Framework (QCF).

It is supported by Skills for Security, the Sector Skills Body for the Security sector.

Key facts

QAN:	501/1297/1
Learning Aim Reference:	50112971
Guided learning hours (GLH):	38*
Credit Value:	4
Assessment Method:	Multiple-choice examinations & practical test

*The SIA stipulate a minimum number of contact hours per unit. Please see Qualification Structure for more details

Qualification Overview

This qualification has been developed to meet the requirements of the Security Industry Authority (SIA). It is based on the relevant SIA Specifications for Learning and Qualifications and provides the learner with the necessary skills and knowledge to apply for an SIA licence and work as a door supervisor within the private security industry.

Entry Requirements

It is advised that learners have a minimum of Level 1 in literacy or numeracy or equivalent.

From 1 January 2013 the qualification will be aimed at learners aged 18 and over due to age restrictions on applying for a licence.

Qualification Structure

This qualification is made up of four mandatory units, the details of which are included at the end of this document.

Learners must successfully complete the assessments for the units to achieve the qualification.

The SIA stipulate a minimum number of contact hours per unit. Contact hours are defined as time spent with a tutor or trainer, or during the assessment.

Units 1, 2 and 3 must all be delivered before the Physical Intervention unit.

Unit	Unit Title	GLH	SIA minimum contact hours
1	Working in the Private Security Industry	10	5
2	Working as a Door Supervisor	10	10
3	Conflict Management for the Private Security Industry	8	7 ½
4	Physical Intervention Skills for the Private Security Industry	10	7 ½

The SIA have stipulated a **maximum** ratio of 12:1 learners to tutor for unit 4.

Full details of all Rules of Combination can be found in Appendix 1 of this specification. All units are contained in Appendix 2.

Guidance on Delivery

The SIA has stated that the training, delivery and assessment of the Level 2 Award in Door Supervision must take place over a **minimum of four days**. Because of this, centres will no longer be permitted to conduct training courses and assessments for this qualification in less than the mandatory training period of four days. This requirement applies to all SIA Approved Awarding Organisations offering the Level 2 Door Supervision qualification, and they will be monitoring training providers to ensure compliance. The new requirement will be effective from **1 December 2012**.

Regarding learners whose first language is not English, the SIA, in consultation with Skills for Security, specifies the following:

“Communication in English is an integral requirement of the SIA competencies. This is made explicit in particular competence statements and in relation to the title of the Part, or Session, which deals with “Communication and Conflict Management”. Learners also need to demonstrate their competence in English in an applied context in relation to other areas of the specifications and competence needs to be considered holistically, with the aim that the learner should be able to demonstrate these same competencies effectively in the workplace. To not be able to do so could have health and safety implications for the individual, and for others, in the workplace.

For the above reasons, it would not be appropriate for learners for whom English is their second language to be provided with a scribe or reader to assist them in their assessment. To do so would also provide an unfair advantage to such learners.

Centres should be advised to carry out an initial assessment of learners to identify their particular needs at the earliest stage. In the case of learners for whom English language communication skills are a weakness (and other particular needs considerations do not apply) it would be appropriate to direct them to undertake additional learning to develop these skills.”

The SIA have stipulated **minimum** contact hours and guided learning hours (GLH). This must be adhered to. For Unit 4 - Physical Intervention Skills for the Private Security Industry – the SIA have stipulated a **maximum** ratio of 12:1 learners to tutor.

Assessment Guidance

This qualification is assessed through 3 multiple-choice examinations and a practical test and written test set by HABC for Unit 4.

Unit 1: Working in the Private Security Industry

This unit is assessed by a 25 question multiple-choice examination, the duration of which is 40 minutes. To be successful, learners must achieve a score of at least 18 out of 25.

Unit 2: Working as a Door Supervisor

This unit is assessed by a 40 question multiple-choice examination, the duration of which is one hour. To be successful, learners must achieve a score of at least 28 out of 40.

Unit 3: Conflict Management for the Private Security Industry

This unit is assessed by a 25 question multiple-choice examination, the duration of which is 40 minutes. To be successful, learners must achieve a score of at least 18 out of 25.

Unit 4: Physical Intervention Skills for the Private Security Industry

This unit is assessed in two parts. Part one is a practical test and part two is a written test set by HABC.

Following the assessment, a list of results will be provided to the centre contacts stating whether learners have passed or failed. Certificates for those who are successful will be dispatched for distribution by the centre contacts.

Age ranges

These qualifications are approved for delivery to learners aged 16+ increasing to 18+ from 1 January 2013.

Geographical Coverage

The qualification is suitable for learners in England, Wales or Northern Ireland. Due to the legislative differences in Northern Ireland, a separate multiple-choice question paper will be available.

Tutor Requirements

HABC require that nominated tutors have teaching experience and hold a qualification in the relevant subject area.

HABC centres wishing to deliver this qualification must adhere to the SIA requirements set out in the document 'Introduction to Learning Leading Towards Licence-Linked Qualifications':

www.sia.homeoffice.gov.uk/Documents/training/modules/sia_specifications_intro.pdf

Please also see below sections on *Sector Competence* and *Guidance on Delivery*.

Trainers of Conflict Management

The SIA requires all trainers delivering scenario-based conflict management training for licence-linked qualifications to have received relevant training. Trainers are required to hold a qualification at or above NQF/QCF Level 3 in the delivery of conflict management training.

Teaching Qualifications

All nominated tutors delivering SIA licence-linked qualifications are required to hold a teaching qualification, many of which are listed below.

Suitable Teaching Qualifications include:

- Level 3 or 4 PTLLS or above
- Diploma or Certificate in Education
- Bachelors or Masters Degree in Education
- City and Guilds Teachers Certificate or equivalent
- Level 3 or 4 NVQ in Training and/or Development

Please note nominated tutors will need to upload appropriate certificates to their application before HABC will be able to approve them. For this qualification, this includes a Level 3 Delivery of Conflict Management Training certificate, a Level 3 Deliverers of Physical Intervention Training in the Private Security Industry QCF certificate as well as an up-to-date certificate/licence agreement for the physical intervention programme they use.

Sector Competence

Nominated tutors delivering the learning leading to licence-linked qualifications must demonstrate that they have the necessary experience, knowledge and understanding of the sector in which they are providing training.

Awarding organisations may require additional information about a nominated tutor's occupational experience for consideration in the approval process, for example, experience of working in the private security industry or working in a role that can be mapped to the requirements of the private security industry.

To ensure that nominated tutors have the right occupational expertise, the SIA and awarding organisations require nominated tutors to have a minimum of **three years frontline operational experience in the last 10 years**, relevant to the area they are training.

It is also a requirement that nominated tutors must demonstrate to awarding organisations that they are keeping their own knowledge (and skills where appropriate) up-to-date and relevant to industry. This is best demonstrated by evidence of professional development and/or ongoing workplace experience.

Mapping to National Occupational Standards

This qualification maps to the National Occupational Standards for Security Loss and Prevention owned by Skills for Security.

Reasonable Adjustments and Special Considerations

HABC has measures in place for learners that require additional support. Please see the Reasonable Adjustments Policy within the HABC Core Manual.

ID requirements

It is the responsibility of each approved HABC centre to have systems in place to ensure that the person taking any of the security licence-linked qualifications is indeed the person they are purporting to be.

All centres are therefore required to ensure that each learner's photograph and formal identification documents are checked and recorded before they are allowed to sit the examination/assessment.

The invigilator must check all photographs supplied by the learners and ensure each is a true representation of the individual about to take the examination. Once satisfied, the invigilator must print the learner's name on the reverse of the photograph before sticking onto the adhesive film on the Identification Validation Sheet.

Please see link below for a list of documentation that the SIA will accept as proof of identification:

http://www.highfieldabc.com/Assets/Files/HABC_ID_Validation_Group_AB.pdf

Progression

Progression and further learning routes could include:

- Level 2 Certificate in Providing Security Services
 - Further learning in other areas of the private security industry, for example, security guarding or CCTV operations

- The importance of an admissions policy:
 - to stop unwanted people
 - to check for drugs
 - to check for weapons
- Common areas that can be included in an admissions policy, for example:
 - maximum numbers
 - checking for customers who are drunk or on drugs
 - attitude of the customer
 - dress code
 - age restrictions
 - search policy
- The reasons for searching premises, for example:
 - to look for suspect packages
 - to search for drugs or weapons
 - to meet H&S requirements, for example, identify hazards
- How to search people and their property:
 - gaining permission from customer
 - same sex search
 - following the search policy
 - in view of CCTV if possible
- The differences between general, random and specific searches
 - General
 - everyone searched
 - Random
 - selection of people
 - Specific
 - specific individual searched
- The hazards involved in conducting searches and appropriate precautions that can be taken:
 - Hazards, for example:
 - needles
 - weapons
 - violence
 - Precautions
 - use of PPE, for example, needle-proof gloves
 - in view of CCTV if possible

- The definitions of offensive weapons:
 - made, adapted or intended to cause harm
- The procedures for handling and recording articles, including drugs, seized during a search for example :
 - Work as a team
 - Record the details in relevant documentation

 - handover any evidence
 - complete required documentation
 - Attending court if required

LO5 Understand relevant drug legislation and its relevance to the role of the door supervisor

- Aspects of current drugs legislation that apply to the role of the door supervisor:
 - Misuse of drugs act 1971
 - possession
 - possession with intent to supply

- The common indicators of drug misuse, for example:
 - uncoordinated behaviour
 - dilated pupils
 - anxiety
 - powder marks around the nose
- Common types of illegal drugs :
 - Classes
 - A – heroin, cocaine, ecstasy
 - B - cannabis, amphetamines
 - C - tranquilisers, anabolic steroids
- How to recognise signs of drug dealing :
 - Suspicious behaviour, for example:
 - frequent trips to the toilets
 - many customers approaching one individual
 - Drugs paraphernalia, for example:
 - used needles
- The procedure for dealing with customers found to be in possession of drugs:
 - seizure of drugs
 - possible arrest
 - inform the relevant manager for example, Designated Premises Supervisor (DPS)
 - complete relevant documentation
- How to safely dispose of drug related litter and waste, for example:
 - use Personal Protective Equipment (PPE) – needle proof gloves
 - use sharps boxes if available dispose of bloodstained tissues down the toilet

LO6 Understand incident recording and crime scene preservation

- The types of records needed to be kept by a door supervisor and reasons for this:
 - Types, for example:
 - incident reports
 - personal notebook
 - accident book
 - Reasons, for example:
 - potential use as evidence
 - could be required in court
 - self protection
- Incidents that need to be recorded and when the police are to be called, for example:
 - arrests
 - any use of force
 - accidents
 - drug seizures

- The procedures for record keeping, for example:
 - being in line with company policy
 - completed promptly
 - accurate
 - notebook rules

- The different types of evidence:
 - Direct
 - something seen, heard or experienced by the Door Supervisor
 - Circumstantial

 - intoxication
 - drug use
 - violence
- Police powers with regard to licensed premises, for example:
 - right of entry and to search premises
 - closure of premises
- The powers of entry of authorised persons, for example:
 - Authorities
 - licensing authorities
 - fire safety inspector
 - environmental health officer
 - Powers
 - right to enter licensed premises at any reasonable time to carry out statutory duties.
- The rights and duties of licensees and door supervisors as their representatives:
 - admission policy
 - maintaining order in line with licensing objectives

LO8 Understand and be able to follow procedures for emergency situations

- Common human responses in an emergency situation, for example:
 - panic
 - ignoring the emergency
 - following usual exits rather than fire exits
- The reasons for having fire risk assessments and maximum occupancy figures, for example:
 - legal requirement
 - customer & staff safety
 - effective evacuations
- Behaviours that could indicate unusual and suspicious activity:
 - particular interest in venue
 - interest in CCTV systems
 - interest in security arrangements
 - loitering
 - photography
 - making notes
 - false alarm activations
 - signs of forced entry

- Current counter terrorism issues and procedures as they relate to the role of a door supervisor:
 - vigilance in and near the venue
 - searching customers and bags on entry
 - regular patrols
 - suspicion of people taking an interest in security measures
 - parked vehicles with occupants
 - unoccupied vehicles unattended for long periods

- Common situations requiring first aid that occur in licensed premises:
 - alcohol misuse
 - cuts and bruises
 - drug misuse
 - heat exhaustion

- How to dispose of contaminated waste safely, for example:
 - use of sharps boxes
 - flushing bloodstained tissues down the toilet
 - use of appropriate PPE

Unit Content

LO1: Understand the principles of conflict management appropriate to their role

- The importance of positive and constructive communication to avoid conflict:
 - Be proactive in giving information to customers.
 - Listen to the individual, before you respond.
 - Maintain a calm tone and non-aggressive body language.
- The importance of employer policies, guidance and procedures relating to workplace violence:
 - legislation – Health and Safety at Work Etc. Act 1974
 - reduce risk of litigation/employer/employee
 - protect company reputation
 - provide clear role and responsibility
- Factors that can trigger an angry response in others:
 - Factors, for example:
 - being drunk or on drugs
 - emotions – anger, pain, upset etc.
 - Possible triggers, for example:
 - showing disrespect
 - threatening/aggressive behaviour
 - insulting behaviour
- Factors that can inhibit an angry response in others:
 - Self-control
 - calmness
 - fear of prosecution
 - fear of retaliation
- How managing customer expectations can reduce the risk of conflict:
 - clear communication
 - managing unrealistic expectations
 - explaining procedures
 - proactive service delivery
- Human responses to emotional and threatening situations:
 - fight or flight
 - fear
 - shock

LO2: Understand how to recognise, assess and reduce risk in conflict situations.

- The stages of escalation in conflict situations:
 - frustration
 - anger
 - aggression
 - violence
- How to apply dynamic risk assessment to a conflict situation:
 - Think 'safety first'.
 - Assess the situation.
 - Consider your options.
 - Take action.

LO3: Understand how to communicate effectively in emotive situations and de-escalate conflict

- How to use non-verbal communication in emotive situations, for example:
 - awareness of personal space
 - non-aggressive body language
 - open hand gestures
- How to overcome communication barriers, for example:
 - Move to a quieter area.
 - Speak slowly and calmly.
 - Use non-aggressive body language.
 - Be patient.
- The difference between assertiveness and aggression, for example:
 - Assertive
 - firm but fair
 - calm
 - polite
 - Aggressive
 - threatening
 - rude
 - unsympathetic
- Ways of defusing emotive conflict situations, for example:
 - positive communication
 - empathy
- Appropriate approaches to take when confronting unacceptable behaviour, for example:
 - assertive
 - positive communication
 - non-aggressive body language
 - empathy

- How to work with colleagues to de-escalate conflict situations, for example:
 - dynamic risk assessment
 - positioning
 - switching
- The importance of positioning and exit routes, for example:
 - non-aggressive stance
 - maintaining personal space
 - ensuring an escape route is available for self and aggressor

LO4: Understand how to develop and use problem solving strategies for resolving conflict.

- The importance of viewing the situation from the customer's perspective, for example:
 - helps to defuse conflict situations
 - enables the use of empathy
 - builds a rapport
- Strategies for solving problems, for example:
 - empathy
 - rapport
 - managing the customer expectations
- Win-win approaches to conflict situations, for example:
 - Both sides satisfied with outcome
 - satisfaction of self
 - customer treated fairly

LO5: Understand good practice to follow after conflict situations

- The importance of accessing help and support following an incident:
 - emotional support
 - reduces the possibility of post-traumatic stress disorder
- Importance of reflecting on and learning from conflict situations, for example:
 - making improvements
 - sharing good practice
 - identifying poor practice
- The importance of sharing good practice:
 - sharing expertise
 - improved procedures
 - improved safety
- The importance of contributing to solutions of re-occurring problems, for example:
 - improved customer service
 - improved morale and safety

Application of Communication Skills and Conflict Management for Door Supervisors

Aim:

To observe, discuss and participate in scenario situations requiring effective communication skills and conflict management. This is so that learners become aware of situations likely to lead to conflict and can apply knowledge of effective communication and conflict management skills to these situations.

1. Refusing entry to a customer on the grounds of:

- the venue already being full to capacity
- being under the influence of drink and/or drugs
- being underage
- not being suitably dressed
- not being able to pay the entrance fee
- refusal to be searched
- being found in possession of weapons or drugs
- being banned or under an exclusion order

Objective:

By the end of this session learners will understand the rules regarding entry refusal and will know how to refuse entry in a way that reduces the risk of conflict.

2. Ejecting a customer from the venue due to:

- breaches of criminal law (theft, damage, assaults, drugs etc.)
- breaches of licensing law (being drunk, violent, quarrelsome etc.)
- breaches of house rules (dancing on tables, bottles on the dance floor etc.)

Objective:

By the end of this session learners will understand the rules regarding ejection and will know how to eject a customer in a way that reduces the risk of conflict.

3. Incidents inside the venue, such as:

- advising/reprimanding for behaviour (breaches of house rules)
- a first aid situation
- undertaking an arrest of a customer for an arrestable offence
- failing to adhere to drinking-up times
- domestic disputes
- other disputes (customer vs. bar staff, complaints about service etc.)
- arguments/fights
- lost property (coat/bag/keys etc)
- dealing with incidents that lead outside of the premises – what should be the door supervisor's obligations.

Objective:

By the end of this session learners will be able to identify some of the types of incidents that occur inside the venue, and to understand how they can deal with them in a way that reduces the risk of conflict. They will also understand the law about arrest in relation to a door supervisor's role.

Scenario Situations:

The following are examples of scenarios which should be used as role plays and in discussions to reinforce the communication skills and conflict management learning. Nominated tutors are recommended to use at least one from each section below.

Refusal scenarios:

1. Refuse entry to customers when the venue is full, explaining why no more people can come in, explaining that they may be allowed in if and when other customers leave.
2. Refuse entry to someone who is obviously under the influence of drink or drugs. Some customers may complain, but go away; others will argue and may become aggressive.
3. Refuse entry to someone who appears to be under the age of 18 (or 21), and cannot provide appropriate ID.
4. Refuse entry to someone who breaches the venue's dress code, i.e. someone wearing trainers where this is not allowed.
5. Refuse entry to someone who wants to come in free of charge, who either cannot pay the admission charge or who claims to be a friend of someone who works there.
6. Refuse entry to someone who refuses to be searched as a part of the entry conditions.
7. Refuse entry to someone found in possession of either an offensive weapon or drugs.
8. Refuse entry to someone who is banned from entering the premises because of previous behaviour, or who is under a court exclusion order not to enter licensed premises, or who is on a 'pub watch' ban.
9. Refuse entry to someone who behaves aggressively at the point of entry, and is therefore not suitable to be allowed in.

Ejection scenarios:

10. Eject a customer for being suspected of theft, criminal damage, assault or drugs inside the venue (where no police action is required). Some customers will leave when asked to do so; others will argue and/or may become aggressive.
11. Eject a customer who breaches licensing laws by becoming very drunk or argumentative or aggressive inside the venue. Some customers will leave when asked; others will argue and/or become aggressive;
12. Eject a customer for breaching a house rule such as repeatedly dancing on tables or carrying bottles/glasses on the dance floor.

Incident scenarios:

13. Advise a customer regarding unacceptable behaviour inside the venue. Try to stop the behaviour, warning the customer about further action if the behaviour persists.
14. Deal with a first aid incident where other drunken customers try to take over.
15. Deal with a domestic dispute which turns into a noisy incident inside the venue.
16. Deal with other disputes inside the venue, such as a customer arguing with bar staff over incorrect change given, or a complaint about poor service.

17. Deal with various aggressive arguments between customers, to try to prevent them from turning physical.
18. Deal with customers (usually drunk) who refuse to leave the premises at closing time.
19. Arrest a customer as a last resort. Some customers will comply with the arrest; others will become argumentative or aggressive.
20. Deal with people in the 14-18 age group who may be under the influence of alcohol or drugs.

Unit 4: Physical Intervention Skills for the Private Security Industry

5. Understand good practice to follow after physical interventions	<p>5.1 State the importance of accessing help and support following an incident</p> <p>5.2 State the importance of reflecting on and learning from physical intervention situations</p> <p>5.3 Identify additional factors when reporting and accounting for use of force</p>

Unit Content

LO1: Understand physical interventions and the legal and professional implications of their use

- Differences between defensive physical skills and physical interventions(PI):
 - *Defensive physical skills* – PI skills used to protect oneself from assault
 - *Physical interventions*– the use of direct or indirect force, through bodily, physical or mechanical means, to limit another person’s movement

- Differences between non-restrictive and restrictive interventions
 - *Restrictive interventions*:
 - involve the use of force to limit the movement and freedom of an individual and can involve bodily contact, mechanical devices or changes to the person’s environment.Such interventions can be:
 - highly restrictive i.e. severely limit the movement and freedom of an individual
 - low level restrictive i.e. limit or contain the movement and freedom of an individual who is less resistant with low levels of force
 - *Non-restrictive interventions*:
 - allow a greater degree of freedom where the subject can move away from the physical intervention if they wish. This would include prompting and guiding an individual to assist them in walking and also defensive, self-protective interventions.

- Positive alternatives to physical intervention:
 - *Primary Controls* - following employer safety and security policy, procedures and working practices, use of safety and security equipment and technology (for example, radio for summoning assistance, CCTV, access control).
 - *Secondary Controls* - positive and effective interpersonal communication as well as the knowledge and skills of conflict management in reducing the need for physical intervention.

(Note: Underpinning knowledge of interpersonal communication will have been completed as part of Common unit and Conflict Management unit)

- Why it is important to use physical intervention skills only as a last resort;
 - Physical intervention can:
 - increase risk of harm to staff and customers
 - result in prosecution of staff if use of force was unnecessary, excessive, or in any other way unlawful
 - lead to allegations against staff and potentially loss of licence and/or employment.

 - Examples of ‘last resort’ include when:
 - other options have failed or are likely to fail
 - it is not possible or appropriate to withdraw

- Legal and professional implications relating to the use of physical interventions:
 - **Legal authority** to use force under Statute and Common Law (Please note: content will be different as applicable for each of the four nations)
 - **Duty of care:** Considerations concerning use of physical intervention (Note: Learners will have underpinning knowledge surrounding use of force, arrest, human rights and duty of care within Common and Specialist Units – Door ACs 2.1 and 2.4; Security Guarding 6.4; Common 2.2 and 3.2)
 - **Sector specific legislation and professional guidance:** Importance of familiarising oneself with legislation, professional guidance and standards relevant to area of employment.

LO2: Understand how to reduce the risk of harm when physical intervention skills are used

- Use of dynamic risk assessment in situations where physical intervention skills are used
 - Dynamic risk assessment used to:
 - assess threat and risk of assault to staff and harm to others through a decision to use physical intervention
 - evaluate options available and make an informed decision about whether to intervene, when and how
 - identify when assistance is needed
 - continuously monitor for changes in risk to all parties during and following an intervention
 - inform decision to de-escalate use of force and/or withdraw

(Note: Learners will have underpinning knowledge of dynamic risk assessment from the CM Units – AC 2.1 and 2.2)
- Risks factors involved with the use of physical interventions
 - Potential Medical Consequences
 - Serious harm or death can result from:
 - strikes and kicks
 - an individual falling or being forced to the ground
 - interventions involving the neck, spine or vital organs
 - restraint on the ground (face up and face down), or other position that impairs breathing and increases risk of death through positional asphyxia
 - any forceful restraint that can lead to medical complications, sudden death or permanent disability especially where situational and individual risk factors are present (see below)

Although lawful in certain circumstances, such interventions will require high levels of justification and training.

The longer the duration of the restraint the greater the risk.

- Situational factors that increase risk:
 - environmental hazards
 - staff numbers
 - availability of help
 - threats presented by others
 - options available
 - increased risk of falls with one on one restrictive holds.

- Individual factors that can increase risk:
 - risks linked to age
 - size and weight
 - physical health and mental health
 - alcohol or drug abuse
 - physical exhaustion
 - recent ingestion of food
 - medical conditions/predispositions.

- Ways of reducing the risk of harm during physical interventions
 - Choosing the least forceful intervention practicable
 - The physical intervention with the least force and potential to cause injury to the subject in achieving the legitimate objective
 - Communication
 - The importance of ongoing communication between staff and the subject during and following restraint
 - Monitoring:
 - The wellbeing of the subject of intervention for adverse reactions of subject
 - Leadership and Teamwork:
 - The importance of someone taking a lead role and others offering support as team members
 - Ensuring practice follows the procedures taught and is not deviated from significantly
 - De-escalation of physical intervention at the earliest opportunity to reduce exposure to risk
 - Emergency procedures:
 - Immediate release and assistance if subject complains or demonstrates signs of breathlessness or other adverse reactions

- Responsibilities immediately following physical interventions
 (Note: Learners will have underpinning knowledge surrounding duty of care and evidence preservation from Conflict Management for the Private Security Unit - LO 5).
 - Ensure that:
 - duty of care to the subject is maintained following restraint
 - appropriate medical attention is provided to any person who appears to be injured or at risk
 - any emergency services attending are updated about the circumstances, position, duration and any difficulties experienced in a restraint event
 - evidence is preserved and witnesses secured

- Why it is important to keep physical intervention knowledge and skills current:
 - because legislation and guidance can change
 - because proficiency in physical skills will decrease over time, potentially reducing effectiveness and increasing risks

LO3: Be able to use non aggressive physical skills to protect yourself and others from assault

- Non-aggressive stance and positioning skills:
 - Position that reduces vulnerability to assault and facilitates exit or intervention, whilst maintaining positive, non-threatening, non verbal communication
- Non-aggressive skills used to evade and protect against blows:
 - From the skills covered in 3.1, show how use of limbs and movement can protect against an assault.
- Non-aggressive methods of disengagement from grabs and holds:
 - A small number of skills relevant to the security role that address the most common types of assault.
- Non-aggressive methods to stop one person assaulting another:
 - No more than two skills that can be adapted to different scenarios.
- Non-aggressive team methods to separate persons fighting:
 - No more than two skills that can be adapted to different scenarios.
- Communicate professionally with the subject of physical intervention while protecting yourself and others from assault:
 - Helping to calm the individual, give instructions and check wellbeing.

LO4: Be able to use non-pain related standing holding and escorting techniques, including non-restrictive and restrictive skills

- Use of a method for physically prompting a person:
 - A non-restrictive prompt for use when verbal and non verbal persuasion has not achieved, or is not likely to achieve, the legitimate objective.
- Use of a non-restrictive method of escorting a person:
 - A non-restrictive use of force to escort where prompting is not sufficient
- Use of a one-person low level restrictive standing hold that can be used as an escort:
 - Remind learners of the increased risks associated with one on one restraints and teach a low level intervention option for use to hold and escort.
- Use of a two-person low level restrictive standing hold that can be used as an escort:
 - A more restrictive hold and escort skill involving a minimum of two persons
- How to provide support to colleagues during a physical intervention:
 - Support activities include positioning to observe potential threats to colleagues and customers and to help contain the situation
- How to de-escalate and disengage a physical intervention ensuring safety for both parties:
 - Demonstrate controlled reduction of use of force to the point where staff can safely disengage
- Communicate professionally with the subject of physical intervention, while using prompting, holding and escorting techniques:
 - Helping to calm the individual, give instructions and check well being

LO5: Understand good practice to follow after physical interventions

(Note: Learners will have underpinning knowledge surrounding action following incidents reporting and report writing from Working as a Door Supervisor – LO7)

- The importance of accessing help and support following an incident:
 - Recognise potential for physical and psychological harm following an incident where force has been used and importance of accessing appropriate support
- The importance of reflecting on, and learning from, physical intervention situations:
 - Importance of sharing learning from experiences with colleagues and employers, so that situations needing physical intervention can be reduced or managed more safely.
- Additional factors when reporting and accounting for use of force:
 - description of subject/s behaviour
 - other 'impact factors'
 - staff responses including description of physical interventions and level of force used
 - description of any injuries sustained
 - first aid and medical support provided
 - details of admission to hospital
 - support to those involved and follow up action required

Appendix 3: Standards of Behaviour for Door Supervisors

A door supervisor should at all times:

- wear clothing which is smart, presentable, easily identifies the individual as a door supervisor, and is in accordance with the employer's guidelines.
- wear the Security Industry Authority licence on the outside of their clothing whilst on duty, displaying the photograph side.

Professional Attitude & Skills

A door supervisor should:

- greet visitors to the licensed premises in a friendly and courteous manner
- act fairly and not discriminate on the grounds of gender, sexual orientation, marital status, race, nationality, ethnicity, religion or beliefs, disability, or any other difference in individuals which is not relevant to the door supervisors responsibility
- carry out his/her duties in a professional and courteous manner with due regard to and consideration of others
- behave with personal integrity and understanding
- use moderate language, which is not defamatory or abusive, when dealing with members of the public and colleagues
- be fit for work and remain alert at all times
- develop knowledge of local services and amenities appropriately.

General Conduct

In carrying out his/her duty, a door supervisor should:

- never solicit or accept any bribe or other consideration from any person
- not drink alcohol or be under the influence of alcohol or drugs
- not display preferential treatment towards individuals
- never abuse his/her position of authority
- never carry any item which is, or could be considered to be, threatening
- report all incidents to the management
- co-operate fully with members of the Police, Local Authority, Security Industry Authority, and other statutory agencies with an interest in the licensed premises or the way they are run

Organisation / Company Values and Standards

A door supervisor should:

- adhere to the employing organisation/company standards
- be perceptive of the employing organisation/company culture and values
- contribute to the goals and objectives of the employing organisation/company
